

# **Beat Alcohol and Drug Addiction Quickly and Easily, FOREVER!!!**

**THIS is the alcohol and drug addiction solution the “experts” don’t want you to find out about!**

## **FACTS:**

People can drink or drug abusively and return to normal, HOW?

80% Of The Alcohol Consumed is Consumed by 10% Of The Drinking Population

Alcohol And Drug Abuse is the #1 Cause Of Divorce

Substance Abuse is the #1 Cause of Homelessness

The majority of auto accidents are caused by someone who was a drinking or substance abuse problem.

Almost everyone has been touched by someone who suffers from alcohol or drug addiction.

Alcohol withdrawal kills more people than all other drugs combined!

**Most never know someone they love has an addiction problem, because most addicts are highly functional!**

You’ve tried everything to quit your addiction: Alcoholics Anonymous, will power, religion, therapy, or switching to another drug. But you just can’t! The rate of relapse is high, and maybe you’re about to give up hope. I know your struggles all too well as a recovering addict myself. I’ve been in a personal recovery program for 30 years, but alcoholism and drug addiction is much worse now than it was 30 years ago! When I started going to recovery meetings, I couldn’t believe how many people constantly relapsed. This led me back into some basic research and introspection into the “recovery” movement. And then I realized that while addiction gets worse, most treatment programs haven’t changed in 50 years!!!

I’ve had the honor of not only beating my own addictions, but training many therapists in techniques to help their clients recover from alcoholism and other additions. I find that the therapists who have worked with people and addictions all experience the same difficulties...clients do well at the beginning, then hit some stressor and return to their addictive behaviors.

## **And Then It Hit Me!**

For over 30 years, I’ve used Hypnosis and NLP (Neuro-Linguistic Programming) to help people lose weight, stop smoking, lower stress, improve their sports games and overcome their addictions. Why not share the same techniques that have worked for me as well as for the 20,000 clients I’ve treated over the last 30 years? Why not share how I rapidly helped my

clients reprogram their minds, with my unique approach that not only helps them recover, but to become the person they always wanted to be?

# **Introducing: The Alcohol and Addiction Solution**

## **Module 1: Understanding Addictions**

To successfully treat an addiction you must understand the nature of addictions. Unless you truly understand some basics of addictions you will fall prey to the misconceptions that hold people back from truly helping. I teach the nature of addictions, and how they become “nurtured,” and if addictions are truly genetic. I then introduce you to the NLP Model of Addiction, and how NLP and Hypnosis work.

**“I took this class to HELP OTHERS But Cleaned Up My Own Life”**

I took the first course in Hypno-addictions from Dr. Horton several years ago because as I told everyone, “I wanted to help others with this problem.” Well, I took the class and ended up stopping my “social drinking” and have not looked back. This course truly changed how I helped others! I am now clean and sober and love helping other people recover! ~Rich from Florida

## **Module 2: The Truth about Substance Abuse and Substance Dependence**

Inside this module, you’ll discover the fine line between substance abuse, and substance dependence. I discuss the family issues you’re likely to encounter, what works and what does not, and how to treat your addiction effectively.

**I was Nervous about Helping Addicts...  
Now I look Forward To It!**

I had a client coming in who had a severe alcohol and drug problem, I wanted to help him but had no idea how. He had tried treatment, AA, and psychotherapy, but he could not stop. I had

Dr. Horton walk me through what to do, and he not only stopped, but now he wants to help others! ~ Cris Johnson, New York

## Module 3: **The True History Of Treatment**

Why not study the past and learn from it? This module is a look at the true history of addictions. Here, we learn what works and combine it with NLP to create something AMAZING!!! Learn the #1 reason it is so hard to stop an addiction, and how to reverse that. In this module, I also cover survival mechanisms, neuro-chemicals and addictions, and the how to create a biological balance with NLP and hypnosis.

### **“This Guy Knows His Stuff! Train with the BEST!”**

Although I have studied and worked in various fields of self-growth all of my life since the early 90's, I have placed great focus on hypnosis and NLP. In this study, Dr. Will Horton has remained my first, and most admired mentor. Recently I have been training with Will in Addictions & (Covert) Hypnosis and NLP 4 \$ales..... Wow! Just when I thought I knew so much, I have learned so much more. You'll find Dr. Will to be extremely well versed in his areas of expertise. Will teaches using the concepts he is teaching! It's pure genius! You receive not only training, but he answers the most crucial question; "How can I use this?" When you accept Will Horton as your guide through the exciting fields of NLP and Covert Hypnosis you have made the wise choice of living your training. Even before the completion of my current courses with Will, I have already used this learning to assist my clients into greater expression of their desired outcomes! Thank you, Will. ~Carole B. Daly, Founder of **EMPOWER**, Wisconsin

## Module 4: **Creating A New You**

To stay recovered from an addiction, it's necessary to reinvent yourself. So in this module, we'll cover your belief systems and change them if necessary. And most importantly, you'll learn to love living your new life.

**According to Federal Data...** "The amount of resources lost to substance abuse is in the BILLIONS of dollars and countless squandered live opportunity." How often have we witnessed a talented person waste away to addiction. Health Ledger, Philip Hoffman, Janis Joplin, Jimmy Hendrix, the list goes on
